Dipsea Lodge

STINSON BEACH, CAL.

Dipsea Lodge is right on the beach. One looks out the windows on mountain and sea while enjoying a cuisine second to none. There are miles of the most wonderful scenic auto roads in every direction—ocean, mountain and farming country to choose from. There is no place on the coast where so many kinds of entertainment can be found in so small an area.

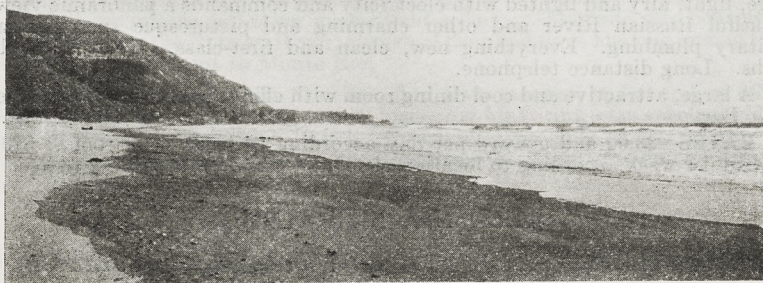

Stinson Beach has $3\frac{1}{2}$ miles of hard level beach, so hard that automobiles can race on it at low tide. The finest climate to be found at any beach resort in California. Beautiful wooded hills come right down to the beach where wooded canyons are covered with wild flowers every month in the year, and are watered by tiny brooks and springs even in Summer. Bathing is fine, the breakers are never rough or sandy although high enough to make surf boards practical and surf jumping interesting. The land locked Lagoon is five miles long and a mile wide, making still water boating and fishing perfect.

First class table—home cooking, vegetables and fruit from home gardens, special chicken dinner on Sunday. Service a la carte or table de Hote.

Rates: \$2.50 to \$3.50 per day, \$15.00 to \$21.00 per week. Auto stage leaves Sausalito 9.15 A.M. daily for the 15-mile drive to Stinson Beach. Returning leaves 1.15 P.M. Round trip from San Francisco, \$2.25 via Sausalito Ferry.

MARK WEST SPRINGS

"The Prettiest Place in California"

The Largest Wild Grape Vine Arbor in the World

The Springs are located on the Mark West Creek, only three hours and a half from San Francisco and but nine miles by auto from Santa Rosa, at an elevation of 800 feet above sea level. There are 8 mineral springs, the largest of these has a flow of 5000 gallons an hour. This spring supplies the large swimming tank, the feature of which is a continual supply of fresh water, assuring the most cleansing bath. Baths and swimming pool free to guests.

The largest wild grape arbor in the world, the dimensions being 50 feet wide and 170 feet in length. The hotel veranda 20x150 feet, and the broad driveway for the autos are entirely under the shade of this magnificent arbor.

A dam over which the water constantly flows is placed in Mark West Creek at the hotel, and boating and swimming is superb.

To reach the Springs take morning or afternoon North Western Pacific (Sausalito Ferry) to Santa Rosa, where autos meet trains by appointment. Special round trip rates. Fine auto road direct to Springs, gasoline and oil supplied at reasonable price.

SHASTA SPRINGS

Hotel and Cottage System

OPENS MAY 15.

SHASTA SPRINGS is located on the picturesque Shasta route of the Southern Pacific Company, 325 miles from San Francisco and 450 miles from Portland.

In addition to the natural mountainous scenery, rarely equaled, and never excelled, Shasta Springs offers in the way of attractions hunting, fishing, automobiling, swimming and tennis. The State Highway passes directly through the grounds, while branching therefrom are many miles of splendid boulevards, maintained by the County of Siskiyou.

The cuisine is recommended for its excellence, while the service is maintained at a high state of efficiency. In fact, one can enjoy all the comforts and luxuries of a first-class city hotel.

Vegetable garden and dairy are operated by the company, which supplies the table with freshest vegetables and purest milk and cream.

An incline railroad known as Shasta Springs Scenic Railway is operated between Shasta Springs Station and the Hotel and Cottage system on the plateau above, conveying guests to and from these points.

Two and three room cottages for small families, and larger cottages for those requiring increased accommodations, equipped with bath and all up-to-date conveniences.

An electric plant furnishes lights, not only to the hotel and cottage system, but throughout the park and groves and along the scenic railway. This, then, is a hurried glimpse of Shasta Springs—the permanent home of Shasta Water, and the summer homes of many charming people.

Rates, \$5.00 per day and upward.

From San Francisco, we recommend either the Oregonian, leaving the foot of Market Street at 10:20 P. M., arriving at Shasta Springs at 10:50 A. M., or Train No. 16, leaving the foot of Market Street at 8:20 P. M., arriving at Shasta Springs the following day at 12:52 P. M. By either of these trains passengers are enabled to behold the beautiful, enchanting and incomparable scenery of the upper Sacramento Valley.

From the North, one can take the Oregonian, leaving Seattle at 12:30 P. M., Portland at 8:00 P. M., arriving at Shasta Springs the following afternoon at 4:52 P. M.

All passenger trains operating between Portland and San Francisco make a liberal stop at Shasta Springs Station, thus affording passengers ample opportunity to regale themselves with the celebrated "Shasta" Water.

For full particulars, address: WM. A. KAMPS, Manager, SHASTA SPRINGS HOTEL CO., Shasta Springs, California.

THE BEAUTIFUL SACRAMENTO RIVER WITH CASTLE CRAG IN THE BACKGROUND.

Crag View

IN THE SHASTA REGION

This mountain resort is located in northern Shasta county, standing on the bank of the headwaters of the Sacramento river and within one mile of the base of the wonderful domes and spires of Castle Crags.

Mount Shasta is but twenty miles away and from our grounds a magnificent view of it is obtained. This mountain is covered with perpetual snow, feeding our clear, cold springs all summer long.

The elevation of Crag View is 2000 feet and sets in a virgin forest of pine and fir. The air is dry, has the odor of the balsam fir and is free at all times from fogs and winds; the nights are cool and mosquitoes are almost unknown. The scenery is very pretty, water-falls, rivulets with moss-grown banks and dense shade are on every side. This resort is homelike, free from dress, formality and restraint. No club room is maintained, it being strictly a family resort. Our particular pride and care is the excellency of our cuisine and we feel that we are not egotistical in saying we believe it to be the best in the north.

We raise all our own fruits, strawberries, raspberries, blackberries and vegetables. We also have a very large herd of dairy cows and the table is supplied with all the good things that a farm can produce. Accommodations consist of hotel, cottages and tents, some of the cottage rooms having private baths. Rates range from \$21.00 to \$30.00 per week, with special rates to families and large parties. Crag View is at Castella Station on the main line of the Southern Pacific railroad San Francisco to Portland. Special excursion fares from San Francisco or Oakland for the round trip are \$14.25 good for 90 days and \$11.75 for 15 days on sale April 30th to Sept. 30th.

Klamath Hot Springs

SISKIYOU COUNTY, CALIF.

OPEN ALL THE YEAR

THE GREAT FISHING, HUNTING AND PLEASURE RESORT

The Springs, at an elevation of 2700 feet, are situated in a narrow valley, through which runs the dashing Klamath River. The valley is surrounded on all sides by picturesque mountain scenery. Tall pines, firs and cedars loom up far above their fellows, almost as far as the eye can see. A grove, mostly of the cottonwood species, extends from the river along the banks of Shovel Creek for at least a mile. On the hillside are several cottages that command a view of a long stretch of green meadows and the rushing Klamath. Nicely furnished tents with electric lights and running water are a feature for this season.

The mud, steam and sulphur bath-house is on a flat of about an acre in extent, which is naturally heated from beneath, and numerous hot springs near by furnish a bountiful supply of mineral water for tub-baths and a shower for each of the bath-rooms. There is also a concrete swimming pool, and a continuous flow of mineral water supplies the same. A fine electric plant makes this resort one of the most complete in every department in the State.

The renowned Shovel Creek flows through the hotel grounds into the Klamath River. In these streams are the finest Rainbow trout fishing to be found on the Pacific Coast. The surrounding mountains offer fine deer, quail and grouse shooting in season. Guide service furnished.

Guests will find commodious accommodations; table supplied with good home living, and no pains are spared to make every guest enjoy his stay, be it long or short. A fine vegetable and fruit garden furnishes the table daily with the freshest of vegetables and the most delicious berries and varieties of the larger fruits.

To reach the Springs take the Southern Pacific to Ager, on the Shasta Route, where auto meets patrons for the twenty-mile ride to the Springs. It is best to notify the management before starting for the Springs, so that accommodations can be provided, as well as proper transportation.

Southern Pacific commencing May 1st and until September 30th will sell special rate excursion tickets.

Rates are \$3.00 per day; \$19.00 per week. Auto fare from Ager, \$3.00 each way.

CRATER LAKE LODGE

IN CRATER LAKE NATIONAL PARK OREGON

On the rim of Crater Lake, 1000 feet above the water and 7200 feet above the sea level, opens July 1st and closes September 30th. Every room is a view room. Toward the north you look directly down upon the most wonderful lake in the world. Toward the south the Klamath Lakes and the Wood River Valley lie 3000 feet below you and a grand panorama of forest and mountain, prairie and water embracing many hundred square miles stretches away to the snow-capped summits of Mt. McLaughlin and Mt. Shasta.

The crater within which Crater Lake rests is 6 miles in diameter and 4000 feet deep. The lake is 2000 feet deep with an irregular circular shore line 20 miles in extent, of precipitous and fantastic rock formation, 600 to 2000 feet in height. The water is cold, clear, pure and wonderfully blue in color.

Crater Lake is accessible to motor tourists and the trip is a most enjoyable one. Fifty miles of good auto roads within the park connect the State highways from Medford on the west, Klamath Falls on the south and Bend on the east. A GENERAL STORE in the park supplies gasoline, oil, provisions, etc., to tourists and campers.

Visitors by rail leave the train at Medford or Klamath Falls to connect with the Crater Lake Company's automobile stage lines. The distance is 85 miles from Medford and 65 miles from Klamath Falls. You may go in one way and out the other. For details of this trip consult your nearest Southern Pacific ticket agent.

Crater Lake is the world's greatest scenic wonder in the estimation of many world travelers. It is a delightful place to spend a week in rest and recreation as well as in the enjoyment of marvelous scenic beauties. There are many points of interest in the park aside from the lake that may be visited by auto, horseback or hiking.

Boats and launches on the lake induce rowing, exploring, sightseeing and fishing. The rainbow trout are large and gamey and the fly-fishing is excellent. Horses for the trail, if you prefer to ride to the water, may be had. There is a piano and phonograph, and dancing is indulged in. Guests are invited to bring music and other instruments. The Great Hall of the Lodge is 40x60 feet without a pillar or post and contains the largest fireplace in Oregon.

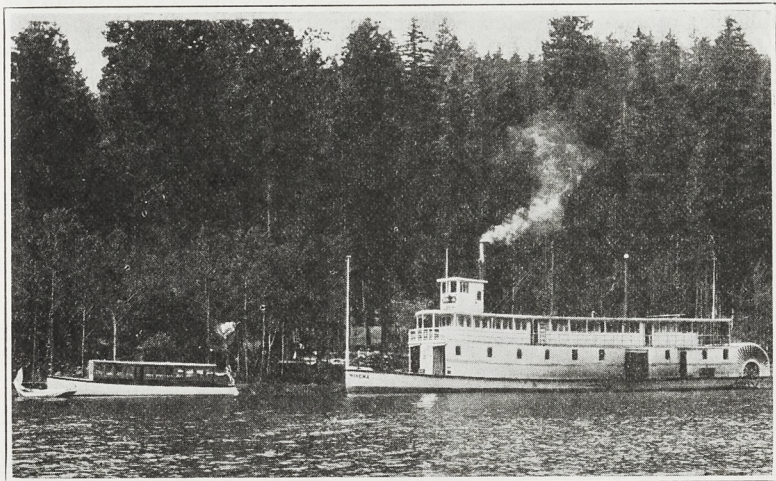

Rates are \$4.00, \$4.50 and \$5.00 per day A. P. Weekly rates are \$24.00 to \$30.00 Children under 10, half rates. At Annie Spring Camp, 5 miles from the lake, the rates are \$3.00 per day, \$17.50 per week.

And if you are fond of walking, you can indulge in it to your heart's content along good trails through the beautiful pine forests to the mines and lakes or along streams that are at our very door. Santa Cruz Big Trees

On Main Line of the Southern Pacific

SIX MILES FROM SANTA CRUZ

Open the Year Round

THE BIG TREES, as they are popularly called, are found only in California. Their scientific name is Sequoia, in honor of Sequoyah, a Cherokee Indian, who designed an alphabet for his tribe.

One of the most accessible of the groves is that known as the Santa Cruz Big Trees, located on the main line of the Southern Pacific, seventy miles south of San Francisco, and six miles north of Santa Cruz and the Bay of Monterey. The trees in this grove are known as Sequoia sempervirens, or redwood, and the largest, The Giant, is 65 feet in circumference and 306 feet in height. Their age has been computed by scientists as being over 6000 years. The secret of their age, however, has not been discovered, but the one great undisputed fact remains, that these trees in all their majesty stand here today the oldest living things in all the world.

The place has recently been put in first-class order, and several attractively furnished and heated cottages have been built, while there are tents for those who prefer them. The situation is superb—in a beautiful redwood canyon on the banks of one of the finest trout streams in California.

Longer trail trips to Hot Springs are a feature. Auto tours can be arranged into the Giant Redwoods, and along the Big Sur River, and the Canyon of the Palo Colorado.

With its new equipment and recent improvements Rainbow Lodge, with its unique location, offers many attractions not to be found elsewhere. The improvements are modern in every respect and the cuisine is unexcelled. The place will be kept open the year round and the winter climate for the most part will be found sunny and delightful. No fog, little dampness, no snow, and very little frost. In the seven trout months—April to November—Mill Creek Canyon has long been known as a Fisherman's Paradise. The deep sea fishing is also excellent the year round.

Tassajara Hot Springs

These famous springs are located in the canyon of the Arroyo Seco River, in Monterey County, on the United States Santa Lucia Forest Reserve, nine miles from the coast and at an altitude of 1700 feet.

The mountain scenery surrounding Tassajara is indescribably grand and has often been compared to the beauty of the Alps. Although only a few miles from the coast, towering mountains shut off cold winds and keep out the least trace of fog.

The springs are an absolute cure for all skin diseases, rheumatism and kidney and bladder troubles in any form. Their best recommendation is from the patrons who have been cured by these wonderful mineral waters, and who constantly send others to receive the same benefits.

Tassajara, meaning a place where deer meat is dried, dates its history back to the days of the Indians, who brought their sick on rudely constructed litters for many miles over rough mountain trails to lay the sufferer by the healing waters that have never failed to cure. Even at the present time may be seen the ancient rock bath tub used by the red man.

Guests who have visited both places have declared the waters of Tassajara almost identical with those of the world-famous Arkansas Hot Springs. The temperature of the water varies from cold to 160 degrees of heat. The natural mineral steam bath is the most wonderful in the State. There are also plunge and tub baths for men and for women.

All of the buildings, including a fine two-story hotel, separate kitchen and dining-room, and bath-houses are built of beautiful sandstone, which was quarried on the place.

While Tassajara is essentially a health resort, many go for recreation and amusement. No tubercular patients accommodated. Four large trout streams center here, and in season deer and quail are abundant. A dance platform, bowling alleys, croquet and billiards are among the amusements.

The road up the Carmel River is a beautiful and picturesque drive. Auto stage leaves Salinas daily except Sunday at 12 M. Guests take 8 a. m. S. P. train at Third and Townsend Sts., reaching Salinas about 11:10 where auto stage will be waiting. After lunch the stage will leave at 12 M. and reach the Springs about 4:30 P. M. Stage fare \$10. Hotel rates, \$21 and \$23, per week, including baths. Two in a room, \$36 and \$40.

EL PISMO INN

On the finest beach in California

The summer season is now open at El Pismo Beach (most attractive beach on the coast of California). Bring your family and friends and come early as our reservations are at a premium as the season advances. Abalone gathering—surf fishing and clam digging is great sport. Surf bathing is ideal, and as there is no undertow, consequently never any accidents. The exploration of natural caves near Pebble Beach adds charm and novelty to life and adventure amid wonderful surroundings. The gorgeous sunset colorings over the wide expanse of the Pacific are equal if not greater than the sunsets of the Orient which tourists and globe trotters rave over.

The floral growth at Pismo is the wonder and admiration of all visitors (flowers bloom here the year round) and calla lillies grow to a height of six feet.

Our twenty-mile beach is famous for automobile races, and aeroplane performances. A day, week or month spent at Pismo is the one chapter in life that will always be recalled with pleasure and a longing to return again, no matter where the wanderer or tourist may be located.
